

assistance, where necessary, to participating schools should they wish to enrol their NCS students and parents in the Programme operated by other schools. If the situation of individual schools warrants special consideration, discretion will be exercised by EDB in respect of the minimum number of NCS students required for the Programme.

5. NCS children allocated to Primary 1 in public sector primary schools in the 2023/24 school year under the Primary One Admission System<sup>2</sup> may opt to send their applications to EDB direct. We will enrol them in the Programme operated by other participating schools if it is not offered by their allocated schools.

6. Participating schools may, having regard to students' learning needs, exercise professional judgement in designing the programme content and arranging various learning activities (e.g. Chinese Language lessons, cultural activities, reading clubs, recitations, dramas, language games, campus tours and visits to community facilities). Schools may also arrange for parents to accompany their children in class and/or other learning activities in order to promote home-school co-operation. Besides, the programme content and modes of operation may be adapted to cater for students with special educational needs.

7. The subvention rate for 2023 is \$24,860 per class. This will be disbursed to schools according to the number of classes approved by EDB, which takes into account the number and grouping of student participants. Any unspent subvention as at 31 August 2023 will be clawed back by EDB based on the audited accounts submitted by schools. The unspent balance, if any, cannot be carried forward for use in the next school year. Transfer of the subvention and/or its unspent balance to any other accounts is not allowed. Schools should ensure that the subvention is used in compliance with the principles set out in the relevant Administrative Guide, otherwise, they will be required to return all the disbursed amount to EDB.

8. To collect schools' feedback on the Programme and evaluate its overall effectiveness, EDB will conduct supervisory visits to schools and collect stakeholders' feedback in the form of a questionnaire upon completion of the Programme. Schools are required to complete the questionnaire and submit it together with the programme content to EDB on or before 29 September 2023. Schools will be informed separately in writing of the relevant arrangements. Furthermore, according to the "School Development and Accountability framework", participating schools should conduct evaluation of the Programme, and set out the implementation details (including class arrangement and the number of participating NCS students and their parents), the findings of the evaluation, the effectiveness of the Programme in improving NCS students' learning of Chinese, etc. in their school annual reports, which should be uploaded to their school webpages on or before 30 November 2023.

9. The Administrative Guide containing details of the Programme and relevant information is available on EDB webpage: <https://www.edb.gov.hk/en/student-parents/ncs-students/support-to-school/summer-bridging-programme/summer-bridging-programme.html>
